

# SOLID PARTNER FOR YEARS

Our mission is to maintain the reputation of an effective contractor offering services in the extractive industry and mineral-based extractive industry.

Our main goal is elimination of obstacles preventing our clients from fulfilling their plans.

Our vision is realised through actions aiming at developing our team's qualifications so that we may provide solutions in your facilities in a comprehensive and effective way.

We wish to provide our clients with services of the highest quality.

## WHY FORK?

FORK is a team of people who work with passion, commitment and responsibility. We believe that the highest standards of service are the absolute minimum.

## FORK IS:

**RESPONSIBILITY** - for the reliable performance of our services, work safety and the environment - we want to have a positive impact on the environment in which we work,

**EFFECTIVENESS** - our Customers value high efficiency of our work, regardless of the industry in which they operate,

**SAFETY** - We operate in accordance with all health and safety regulations, focusing particularly on the protection of the health and minimising the risk to workers,

**VERSATILITY** - each Customer is unique and for each we prepare a personalised offer.

## OUR OFFER

### INDUSTRIAL DEDUSTING FILTRATION

FORK offers service, maintenance and upgrades of industrial dedusting installations. Our experts will help to improve the dedusting system and supply reliable components - the ones which will guarantee reliable air filtration.

### MODERNISATION AND MAINTENANCE OF INDUSTRIAL EQUIPMENT

Although any company (including manufacturing plant) is made of people, the equipment plays an important role. Efficient equipment, properly set up and calibrated for their optimal output level in relation to costs is a must for your business success. Do you have equipment in need of refurbishing or upgrade? Contact our experts and see how we can help!

### SUPPORT OF CONSTRUCTION INVESTMENTS

Are you developing your production plant? Are you planning to expand your production hall or upgrade it? Get comprehensive support. We will help you implement a construction project from start to finish.

FORK is a team of construction and engineering experts. This is how we can design, implement and oversee the execution of any investment.

### MAINTENANCE SERVICE

We minimise the risks involved in technological processes. Production continuity in facilities is one of the highest priorities. Proper care of the condition of the machines and equipment and their operation reduce the risk of malfunction to a minimum, greatly increasing workplace safety.

We customize the offer to individual needs of our Clients. Contact us and we will jointly develop a portfolio of services that will provide you with the comfort and security of your investment.
